Cleaning and care

MATERIAL	IT	EN	FR	SPEC
LAMINATI / LAMINATED WOOD / BOIS STRATIFIE	Si consiglia di pulire con un panno in microfibra, acqua e detergente con ph neutro (evitare prodotti chimici).	It is recommended to clean with a microfiber cloth, water and detergent with neutral PH (avoid chemicals).	Il est recommendé de nettoyer en utilisant un chiffon en microfibre, de l'eau et un détergent au pH neutre (éviter les produits chimiques).	
LEGNI NATURALE / NATURAL WOODS / BOIS NATUREL	Si consiglia di pulire con un panno in microfibra, acqua e detergente con ph neutro (evitare prodotti chimici).	It is recommended to clean with a microfiber cloth, water and detergent with neutral PH (avoid chemicals).	Il est recommendé de nettoyer en utilisant un chiffon en microfibre, de l'eau et un détergent au pH neutre (éviter les produits chimiques).	
PIETRE / STONES / PIERRES	Si consiglia di pulire con un panno in microfibra, acqua tiepida e detergente con ph neutro (evitare prodotti chimici).	It is recommended to clean with a microfiber cloth, tepid water and detergent with neutral PH (avoid chemicals).	Il est recommendé de nettoyer en utilisant un chiffon en microfibre, de l'eau tiède et un détergent au pH neutre (éviter les produits chimiques).	
GRES	**Gres** Per la pulizia ordinaria utilizzare un panno umido e una piccola quantità di detergente a pH neutro o sgrassatori non aggressivi.	**Gres** For the ordinary cleaning use a damp cloth and a small amount of PH neutral detergent or a non-aggressive degreaser.	**Gres** Pour le nettoyage ordinaire, utiliser un chiffon humide et une petite quantité de détergent à PH neutre ou un dégraissant non agressif.	
ACRILICI / ACRYLICS / ACRYLIQUES	**Acrilici Corian** Per la pulizia ordinaria utilizzare panno umido con crema abrasiva leggera o detergente, agire sempre con movimento circolare.	**Corian Acrylics** For the ordinary cleaning use a damp cloth with a light abrasive cream cleaner, and rub it in a circular motion.	**Acryliques Corian** Pour le nettoyage de routine utilisez un chiffon humide avec une crème nettoyante légèrement abrasive, et frotter d'un mouvement circulaire.	
HPL FENIX	Si consiglia di pulire con un panno in microfibra, acqua e detergente con ph neutro (evitare prodotti chimici).	It is recommended to clean with a microfiber cloth, water and detergent with neutral PH (avoid chemicals).	Il est recommendé de nettoyer en utilisant un chiffon en microfibre, de l'eau et un détergent au pH neutre (éviter les produits chimiques).	
QUARZO / QUARTZ / QUARTZ	**Composto di quarzo lucido** Per la pulizia ordinaria delle superfici SM QUARTZ® by Santa Margherita utilizzare un panno umido e una piccola quantità di detergente a pH neutro o leggermente acido.	**Polished engineered stone** For the routine cleaning of the SM QUARTZ® surfaces use a damp cloth and a small amount of PH neutral or slightly acidic detergent.	**Pierre composite poli** Pour le nettoyage de routine des surfaces SM QUARTZ®, utilisez un chiffon humide et une petite quantité de détergent au PH neutre ou légèrement acide.	
	Composto di quarzo spazzolato Per la pulizia ordinaria delle superfici SM QUARTZ® by Santa Margherita utilizzare un panno umido e una piccola quantità di detergente a pH neutro o leggermente acido.	**Brushed engineered stone** For the routine cleaning of the SM QUARTZ® surfaces use a damp cloth and a small amount of PH neutral or slightly acidic detergent.	**Pierre composite brossé** Pour le nettoyage de routine des surfaces SM QUARTZ®, utilisez un chiffon humide et une petite quantité de détergent au PH neutre ou légèrement acide.	

MATERIAL	IT	EN	FR	SPEC
	Quarzo Grain Stone Italiana Per la pulizia ordinaria delle superfici: bagnare la superficie uniformemente con il detergente, strofinare con spugna giallo-verde dalla parte morbida, risciacquare ed asciugare con un panno asciutto.	Quartz Grain Stone Italiana For the routine cleaning: wet the countertop surface uniformly with the detergent, rub gently with the soft side of a yellow/green sponge, rinse thoroughly and dry with a cloth.	Quartz Grain Stone Italiana Pour le nettoyage de routine: verser le détergent sur la surface de façon uniforme, frotter avec le côté doux d'une éponge jaune-verte Scotch-Brite, rincer et sécher en utilisant un chiffon sec.	
GALVANICHE / ELECTROPLATED SHEET METAL / TÔLE GALVANISÉE	Si consiglia di pulire con un panno in microfibra.	It is recommended to clean with a microfiber cloth.	Il est recommendé de nettoyer en utilisant un chiffon en microfibre.	
VETRI / GLASSES / VERRES	Si consiglia di pulire con un panno in microfibra, acqua e detergente con ph neutro (evitare prodotti chimici).	It is recommended to clean with a microfiber cloth, water and detergent with neutral PH (avoid chemicals).	Il est recommendé de nettoyer en utilisant un chiffon en microfibre, de l'eau et un détergent au pH neutre (éviter les produits chimiques).	
LE TERRE DI MATTEO BRIONI / MATTEO BRIONI'S EARTH / LES TERRES DE MATTEO BRIONI	Si consiglia di pulire con panno, acqua e detergente a pH neutro (si consiglia l'impiego del prodotto R881 dell'azienda ErreLab, diluendolo come da indicazioni del produttore).	It is recommended to clean with a cloth, water and a cleanser with neutral pH (we recommend the use of the product R881 by ErreLab, diluting it as indicated by the producer).	Il est recommandé de nettoyer avec un chiffon, de l'eau et un détergent au pH neutre (nous recommandons l'utilisation du produit R881 d'ErreLab, dilué selon les instructions du fabricant).	
LAMIERE / METAL SHEET / TÔLES	Ottone naturale brunito acido La lamina ottone (lega zinco-rame) brunita ad acido L010NBA è una superfice soggetta ad ossidazione mutevole naturale e continua nel tempo (non è adatta al contatto alimentare). La colorazione e l'opacità può subire delle variazioni nel tempo, dovute alla laminatura della lega di ottone, conferendo un aspetto "vintage".	Natural brass burnished with acid Acid-burnished brass sheet (zinc-copper, L012NBA alloy) is a surface subject to natural, changeable and continuous oxidation over time (not suitable for food contact). The color and opacity may also change over time due to the lamination of the brass alloy, giving it a "vintage" look.	Laiton naturel bruni acide La tôle de laiton brunie acide (alliage zinc-cuivre-L012NBA) est une surface soumise à une oxydation naturelle, changeante et continue dans le temps (ne convient pas au contact alimentaire). La couleur et l'opacité peuvent également changer avec le temps à cause du laminage de l'alliage de laiton, ce qui lui donne un aspect "vintage".	

Cleaning and care

MATERIAL	IT	EN	FR	SPEC
	Ottone naturale satinato invecchiato liquido Per la pulizia ordinaria è consigliato l'uso di panno in microfibra con detergente a Ph neutro, si puo' consigliare come trattamento conservativo e al bisogno la stesura di cera d'api mediante l'ausilio di panno in lana (da effettuarsi con personale specializzato). Da considerare sempre per manufatti realizzati in lamina di ottone (lega zinco-rame) sia con trattamento a liquido che con brunitura ad acido possono verificarsi nel caso di spedizioni via aerea e container dei problemi di ossidazione anomala sottoforma di macchie di colore bronzo scuro, non risolvibili.	**Liquid aged satin natural brass** For ordinary cleaning we recommend the use of a microfiber cloth with neutral PH detergent. We recommend, if necessary, or as a conservative treatment, the application of beeswax with a wool cloth (under the supervision of specialized personnel). In case of containers and air shipments of products in brass sheet (zinc-copper alloy), both with liquid treatment and acid burnishing, it is to be considered the possibility of anomalous oxidation problems, in the form of dark bronze stains, which cannot be solved.	**Laiton naturel satiné vieilli liquide** Pour le nettoyage de routine, il est recommandé d'utiliser un chiffon en microfibre avec un détergent au PH neutre. Il est recommandé, si nécessaire, ou comme traitement de conservation, d'appliquer la cire d'abeille en utilisant un chiffon de laine (processus à faire avec du personnel spécialisé). Dans le cas des expéditions aériennes et en conteneurs de produits en tôle de laiton (alliage de zinc et de cuivre), avec traitement liquide et brunissage à l'acide, il faut envisager la possibilité de problèmes d'oxydation anormaux, sous forme de taches de bronze foncé, qui ne peuvent pas être résolus.	
LAMIERE / METAL SHEET / TÔLES	**Lamiera verniciata a polveri** Per la pulizia ordinaria utilizzare panno in microfibra.	**Powder-coated sheet metal** For the cleaning, it is recommended to clean with a microfiber cloth.	**Tôle thermolaquée** Pour le nettoyage, il est recommendé de nettoyer en utilisant un chiffon en microfibre.	
	Lamiera acciaio inox Per la pulizia ordinaria utilizzare panno umido ed acqua.	**Stainless steel sheet** For the ordinart cleaning, use a damp cloth and water.	**Tôle en acier inox poli** Pour le nettoyage de routine utilisez un chiffon humide et de l'eau.	
	Lamiera naturale e microforata Per la pulizia ordinaria utilizzare panno in microfibra.	**Natural and micro-perforated sheet metal** For the cleaning, it is recommended to clean with a microfiber cloth.	**Tôle naturelle et micro-perforée** Pour le nettoyage, il est recommendé de nettoyer en utilisant un chiffon en microfibre.	
	Lamiera galvanica Per la pulizia ordinaria utilizzare panno umido ed acqua tiepida, strofinando delicatamente.	**Electroplated sheet** For routine cleaning use a damp cloth and lukewarm water, wiping gently.	**Tôle galvanisée** Pour le nettoyage de routine, utilisez un chiffon humide et de l'eau tiède, en essuyant doucement.	

NOTE / NOTES / REMARQUES
